

Child Mortality Target: Analysis and Recommendations

**National Indigenous Health Equality Council
2010**

Contents

NIHEC recommendations	1
What are the key drivers?	1
Where are the opportunities for interventions?.....	2
How are we going to close the gap? Key drivers	5
Health outcomes	5
Child mortality	5
Infant mortality.....	5
Low birth weight	6
High birth weight	7
Determinants of health.....	7
Breastfeeding.....	7
Nutrition	7
Obesity	8
Smoking	8
Alcohol.....	8
Socio-economic determinants	9
Health system performance	11
Antenatal care.....	11
Immunisation.....	12
Closing the gap – trend projections to target	13
Child mortality (children aged 0-4 years).....	14
Scenario 1: Current trends observed over period 1998 to present will continue ..	14
Scenario 2: Straight line trajectory to target.....	15
Infant mortality (children under 1 year)	16
Scenario 1: Current trends observed over period 1998 to present will continue ..	16
Scenario 2: Straight line trajectory to target.....	17
Low birth weight.....	18
Scenario 1: Current trends observed over period 1991 to present will continue ..	18
Scenario 2: Straight line trajectory to target.....	19
Antenatal care	20
Scenario 1: Current trends observed over period 1998 to present will continue ..	20
Scenario 2: Straight line trajectory to target.....	21
Current policy context: child mortality	22
Existing targets relating to child mortality	25
